BACKGROUND

STAFF ENGINEER & MANAGER

Flywheel Digital, 2022 - Present

Guiding the technical directions of multiple teams, focused on building large-scale data management tools related to the Amazon, Walmart, and Target retailers using TypeScript.

SENIOR SOFTWARE ENGINEER

Wunderite, 2021 - 2022

Helped re-architect and scale a YCombinator-backed alternative to DocuSign using Laravel, TypeScript, and Vue.js.

HEAD OF SOFTWARE ENGINEERING

WellCaddie, 2017 - 2021

Joined as first engineer and helped launch an oil & gas IoT monitoring service to a valuation over $15M. Involved full-stack web development using Laravel, as well as embedded hardware programming in C.

EDUCATION

B.S., COMPUTER SCIENCE

University of Oklahoma, 2016 - 2020

Incomplete, one semester remaining.
